PROFESSIONAL EXPERIENCE

Lead UI/UX Designer / Design Lead / Project Manager

Cabot Technology Solutions / Fineart Design Agency, Kochi | 04/2021 – Present

- Lead product design for clients across AI, SaaS, HR, pharma and healthcare, owning work from discovery and user research through prototyping, usability testing and release.
- Manage projects end to end, including scope, estimates, timelines, priorities and client communication, in Agile/Scrum teams.
- Mentor and coach designers through design reviews and critique, including practical AI-assisted design workflows.
- Run workshops and design reviews with clients, developers and business stakeholders to align on product direction and decisions early.
- Define information architecture, user flows, interaction design and design system practices across web and mobile products.
- Contribute UX strategy, delivery plans and estimates to pre-sales proposals and solution discussions.
- Partner with development teams through implementation, QA and iteration so shipped products match design intent.

Senior Creative Designer & Front-End Developer

Logiticks Technolabs, Kochi | 03/2017 – 04/2021

- Led UI/UX and visual design for websites and digital products, from design discovery through front-end implementation.
- Translated design concepts into consistent, usable interfaces in close collaboration with development teams.
- Ran solution exploration and implementation reviews across cross-functional projects.
- Delivered web design, branding, visual communication and front-end development for client projects.

UI/UX & Web Designer, Front-End Developer
Art Technology and Softwares India Pvt. Ltd., Kochi | 06/2014 – 03/2017

- Designed websites, user interfaces, mobile app experiences and digital visual assets.
- Built and customised WordPress websites and front-end implementations with development teams.
- Created branding and graphic design for client projects.
